

Cable Pit and Duct Systems

PZ Cable Pits

The PZ cable pits are suitable for use as junction/jointing boxes and access pits and provides a valid alternative to traditional cement well systems.

Applications

- Earth Rod Inspection Cover
- Garden lighting and irrigation boxes
- Telecommunications and utilities boxes

Features

- Lightweight and easy to use
- Easy to cut-out rings for cable duct entry
- Range of covers
- Stackable to suit pit depth requirements
- Available in sizes from 200x200 to 550x550mm

FU Cable Duct

The special shape of the surface allows for small curvature radii, making the FU cable duct ideal for laying in trenches that are less than perfectly aligned.

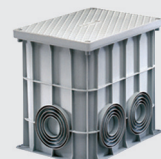

Features

- Built-in cable puller-feeder
- Double-wall cable duct – corrugated outer surface and perfectly smooth inner surface
- Curvature radius equal to 8 times the external diameter of the conduit
- Available in diameters from 40 to 200mm

PZ Cable Pits
